

Electrostatic Imaging System

HSK-5008L e-SCOPE

- Portable, non-contact electrostatic imaging system
- Monitor static in real time
 - Measure charge distribution for all products
 - Monitor static on production lines and workers

Monitor Static Electricity

HANWA Hanwa Electronic Ind. Co., Ltd.

Pioneer [Electrostatic Discharge Test System]

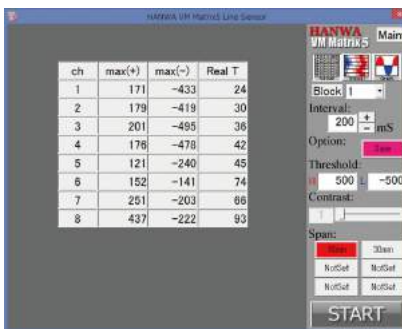

Features

- Eight sensors
- Measurement area : 100×10mm
- LED display
- PC interface
- Three modes : Value mode, Visual mode and Graph mode
(Positive shows Red / Negative shows Blue / Gradation shows the amount of charge)
- Charge distribution
- Portable type, light and easy to bring anywhere

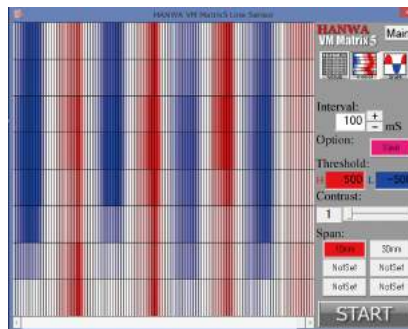

High accuracy

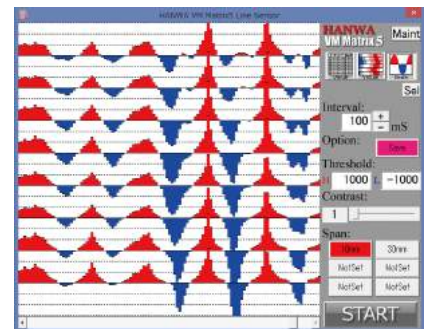

Measurement accuracy : Max.5kV,±10% (Measurement distance : 30mm)
Max.2kV,±10% (Measurement distance : 10mm)

Value Mode

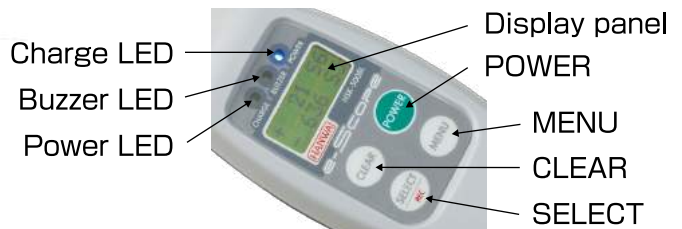

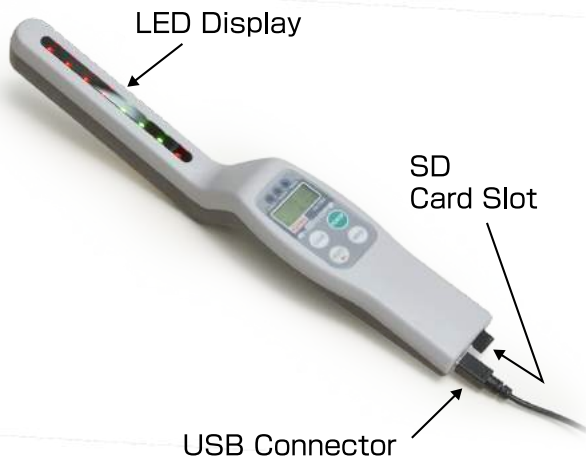

Visual Mode

Graph Mode

Overview

OS : Windows7/8
Dimensions (mm) : H280×W47×D70
Weight: approx.160g

Case for HSK-5008L
